

2.2 Resources and provisions

QA procedures for research provision for all research students include:

- supervision by a researcher/s, qualified at least at the level of the award, with demonstrated ability to make original contributions to the relevant field
- access to human, physical, academic, information, training and financial resources to sustainably support their research degree project, and facilitate its completion in accordance with high ethical and professional standards
- access to expert advice on legal and commercial matters such as intellectual property, as appropriate
