

8.2 Learner information systems

The provider learner information management system is robust, comprehensive and capable of:

- maintaining secure learner records for current use and historical review
- providing reports required for internal quality management and improvement
- generating data required for, and compatible with, external regulatory, professional or national systems as appropriate
- generating statistical and other reports to meet internal and external information requirements, for example, on the QQI database of programmes and awards as prescribed by the legislation
- ensuring that the database is maintained securely and that data relating to learner assessment is accurate and complete
